

GET MORE FROM YOUR EVENTS - USE IML'S KEYPADS TO TEXT, VOTE & TALK

IML - KEYPAD VOTING, MICROPHONE AND TEXT RESPONSE SYSTEMS

WHAT WE DO

In short, IML is the market leader in interactive electronic voting and audience response systems.

Blue-chip companies, government departments, major charities and organizations use IML's flexible audience response systems to enhance their external client and internal communication events.

IML OFFERS MORE!

Our keypads enable your audience to send live text messages and vote during PowerPoint® presentations.

You can even use the keypad's built-in microphone during Q&A sessions.

IML also offers interactive **game show quizzes, Silent Auction technology, laptop messaging systems** and much more...

Arrange a FREE demonstration at your offices to discover everything that IML has to offer.

GLOBAL REACH

We have offices in **North America, the UK and Australia**. To find your nearest office visit www.imlaudience.com

VITAL STATISTICS

- > IML's team of experts has delivered more than 12,000 shows since our launch in 1991.
- > Our award-winning keypads are proven 100% accurate and reliable.
- > We cater for events of all sizes from 5 to thousands.

VOTE >

Instant voting encourages participation and gives you an immediate insight into your audience.

< TEXT

Keypad text messaging gives everyone a chance to submit opinions in their own words. Our fast and easy-to-use text feature is enormously popular among audience members and event organizers alike.

< TALK

The keypad's built-in microphone can be used for dynamic, fast-paced Q&A.

"IML never fails to deliver a great service... They add value to our events by understanding what we are trying to achieve... I look forward to working with them on future events."

Hilary McDade, Assistant Manager, Events Team, Deloitte & Touche LLP
